

Here's a Headline to Make Your Day!

HR Positively Affects the Bottom Line!

You can positively affect your company's bottom line and automate your HR communications with Web-enabled **Abra Suite®** and **Abra Alerts™**, an eHR solution!

Abra Alerts – A Solution with a Quick ROI!

Available exclusively from Abra Suite, Abra Alerts quickly pays for itself by combining the power of the Web and e-mail to virtually eliminate time-consuming HR communication tasks. With Abra Alerts, you'll:

- **Automate your HR communications** for recurring events, such as performance reviews with forms attached, and new hire processing;
- **Proactively monitor HR events**, such as FMLA tracking; create reports; and distribute employee notifications with your existing email; and
- **Reduce your workload** so you can focus on other HR initiatives, such as recruiting, employee retention, and benefits analysis.

Don't wait! Make a difference at your company with Abra Alerts, eHR that guarantees positive results and good news for a change.

Visit www.bestsoftware.com/GoodNews or call for a **FREE CD and demo.**

Abra Suite, a member of the Sage™ family, is the industry-leading, affordable HR and payroll processing software package with recruiting, training, benefits administration, and employee self-service. Abra Alerts, from Abra Suite, is the only Web-enabled HRIS that monitors and distributes employee communications proactively.

Abra Suite and Abra Alerts are registered trademarks of Best Software, Inc.

Best! **ABRA Suite®**
